

DISABILITY, MENTAL HEALTH AND WELLBEING VOLUNTARY REPORTING

REPORT OF CHIEF FIRE OFFICER

For Information

1. PURPOSE OF REPORT

- 1.1 To update Members on the Brigade's voluntary reporting of Disability, Mental Health and Wellbeing information as at 31 March 2023 (Appendix 1).
- 1.2 To inform Members of the intention to publish future Disability, Mental Health and Wellbeing reports to align with the Brigade's Ethnicity and Gender Pay Gap and Public Sector Equality Duty reporting.

2. RECOMMENDATION

- 2.1 That Members note the Cleveland Fire Brigade Disability, Mental Health and Wellbeing Report (Appendix 1) and the intention to publish future reports to align with Ethnicity and Gender Pay Gap and Public Sector Equality Duty reporting.

3. BACKGROUND

- 3.1 A framework to support employers to voluntarily report on disability, mental health and wellbeing in the workplace has been developed by the government. This was done in partnership with large employers and expert partners (including leading charities) to support organisations to record and voluntarily report information on disability, mental health, and wellbeing in the workplace.
- 3.2 The framework is aimed at large employers with over 250 employees but can also be used to support smaller employers who are keen to drive greater transparency in their organisation or industry.
- 3.3 The government believes that recording and voluntarily reporting information on disability, mental health and wellbeing may support an employer to:
 - improve employee engagement and retention, with consequent gains for performance and productivity – engaged employees are less likely to report workplace stress and take fewer days sickness absence
 - better understand the experiences of disabled people and people with mental health conditions in their workforce
 - better monitor internal progress in building a more inclusive environment for employees

- access a wider pool of talent and skills through promoting inclusive and disability-friendly recruitment, retention, and progression policies
- set an industry example in driving a cultural shift towards increased transparency
- better serve and connect with disabled customers and communities, capitalising on spending power
- engage in open and supportive conversations about disabilities and health conditions to help enable employees to remain in work and achieve their potential

3.4 The Brigade has committed to the voluntary reporting of disability, mental health, and wellbeing key actions we have undertaken over the period 2023. Moving forward, this report will be produced in the same timeline as Ethnicity and Gender Pay Gap, and Public Sector Equality Duty reports.

3.5 The information is to be published on the Brigade's website and relates to data as of 31 March 2023.

PETER RICKARD
CHIEF FIRE OFFICER
