

**COMMUNITY RISK MANAGEMENT PLAN (CRMP)
2022/26 – PROGRESS REPORT****REPORT OF THE CHIEF FIRE OFFICER****For Information****1. PURPOSE OF REPORT**

- 1.1 To advise Elected Members of the progress on the implementation of the Community Risk Management Plan (CRMP) 2022-26, and specifically the priorities detailed within the Fire Authority's Service Plans 2022/23 and 2023/24.
- 1.2 To advise Elected Members of any implications or matters arising from the implementation of the CRMP.

2. RECOMMENDATIONS

- 2.1 Members are asked to:
 - note the progress on the corporate priorities set out in the Authority's CIRMP 2022-26 Service Plan 2022/23 (Appendix 1) and Service Plan 2023/24;
 - consider and provide strategic guidance on any matters impinging on the implementation of the CRMP.

2. BACKGROUND

- 3.1 Cleveland Fire Authority has been using the process of integrated risk management planning for many years and this has led to the current configuration of the Brigade's resources.
- 3.2 The requirement for an Integrated Risk Management Plan (IRMP) was introduced in 2003 and included in the Fire and Rescue Service National Framework, published by the Department for Communities and Local Government. This was given statutory effect by the Fire and Rescue Services Act 2004 and was re-stated in the Fire and Rescue National Framework for England published in May 2018.

- 3.3 The Framework states that each Fire and Rescue Authority must: *‘assess the full range of foreseeable fire and rescue related risks that could affect their communities, whether they are local, cross border, multi-authority and/or national in nature from fires to terrorist attacks. Regard must be had to Community Risk Registers produced by Local Resilience Forums and any other local risk analyses as appropriate.*
- 3.4 *Fire and rescue authorities must put in place arrangements to prevent and mitigate these risks, either through adjusting existing provision, effective collaboration and partnership working, or building new capability. Fire and rescue authorities should work through the Strategic Resilience Board where appropriate when determining what arrangements to put in place.’*
- 3.5 Integrated risk management planning is about using resources in the most effective way to save lives, improve public safety and reduce emergency incidents. It is an approach that:
- identifies who or what is most at risk of fire and other emergencies.
 - determines where they are and how best to reach them.
 - identifies the best way to reduce and manage the risk.
 - ensures that resources are deployed in proportion to the size of the risk.
- 3.6 On 25 March 2022 the Authority finalised and approved its Community Risk Management Plan (CRMP) 2022-26 which sets out the Authority’s:
- operating environment
 - vision, strategic goals, aims and associated outcomes.
 - risk assessment outcomes
 - medium term financial position
 - services, plans and proposals to 2026 to manage its risks.

4. UPDATE ON PRIORITIES

- 4.1 On 9 June 2023 (minute 8.1 refers) Members received a comprehensive report of the priority actions for 2022/23 which showed the completion of most of the actions as set out in the Service Plan 2022/23 and highlighted the extensive work that the Brigade’s officers had undertaken. Two actions were outstanding at that time relating to audit of the financial statements. An update on progress of these is set out at Appendix 1.

- 4.2 Attached at Appendix 2 is a summary progress report on the implementation of the priorities due for completion by 30 September 2023 as set out in the Service Plan 2023/24.
