

ROLE OF THE CHIEF FINANCE OFFICER (CFO) IN PUBLIC SERVICE ORGANISATIONS**REPORT OF THE TREASURER****For Information****1. PURPOSE OF REPORT**

- 1.1 To inform Members of the CIPFA statement – ‘The Role of the CFO in Public Service Organisations’, and how the Authority complies with this guidance.

2. RECOMMENDATION

- 2.1 That Members note that I have reviewed the CIPFA statement – ‘The Role of the CFO in Public Service Organisations’ and can advise Members that the CFA complies with these requirements as detailed in Appendix A.

3. BACKGROUND

- 3.1 The role of the CFO (designated as the Treasurer at this Authority) is a fundamental building block of good corporate governance and the Local Government Act 1972 (section 151) requires ‘every local authority shall make arrangements for the proper administration of their financial affairs and shall secure that one of their officers has responsibility for the administration of those affairs’. This statutory requirement is reinforced by the Local Government and Housing Act 1989 (section 6) which requires that the Section 151 officer is a qualified accountant and a member of an accountancy body approved by the Secretary of State.
- 3.2 The two critical aspects of the CFO’s role are stewardship and probity in the use of resources; and performance, extracting the most value from the use of those resources. The CFO, as the organisation’s most senior executive role charged with leading and directing financial strategy and operations, occupies a pivotal role, both for external stakeholders and within the Leadership Team. CFOs everywhere have a responsibility to ensure that their organisations control and manage money well, and that strategic planning and decision making are supported by sound analysis.
- 3.3 In the public service context, CFOs must also meet the demands of openness and accountability in decision making, balance competition for limited resources across a range of worthwhile objectives, deliver value for money and safeguard taxpayers’ money. Delivering these requires a range of personal qualities, as well as support from both the finance function and the organisation as a whole. It is these expectations, combined with the personal qualities and leadership skills needed for them to be met, that have shaped the CIPFA Statement on the Role of the CFO in Public Service Organisations (the statement).

- 3.4 The Statement sets out the five principles that define the core activities and behaviours that belong to the role of the CFO in public service organisations and the organisational arrangements needed to support them. Successful implementation of each of the principles requires the right ingredients in terms of:
- The Organisation;
 - The Role: and
 - The Individual.
- 3.5 For each principle the Statement sets out the governance arrangements required within an organisation to ensure that CFOs are able to operate effectively and perform their core duties. The Statement also sets out the core responsibilities of the CFO role within the organisation. Many of the day-to-day responsibilities may in practice be delegated or in some authorities may even outsource, but the CFO should maintain oversight and control. Summaries of personal skills and professional standards then detail the leadership skills and technical expertise organisations can expect from their CFO. These include the key requirements of CIPFA and the other professional accountancy bodies' codes of ethics and professional standards to which the CFO as a qualified professional is bound. The personal skills described have been aligned with the most appropriate principle, but in many cases can support other principles as well.

4. CIPFA STATEMENT ON THE ROLE OF THE CFO IN PUBLIC SERVICE ORGANISATIONS

4.1 The CFO in a public service organisation:

1. is a key member of the Leadership Team, helping it to develop and implement strategy and to resource and deliver the organisation's strategic objectives sustainably and in the public interest;
2. must be actively involved in, and able to bring influence to bear on, all material business decisions to ensure immediate and longer term implications, opportunities and risks are fully considered, and alignment with the organisation's financial strategy; and
3. must lead the promotion and delivery by the whole organisation of good financial management so that public money is safeguarded at all times and used appropriately, economically, efficiently and effectively.

To deliver these responsibilities the CFO:

4. must lead and direct a finance function that is resourced to be fit for purpose; and
5. must be professionally qualified and suitably experienced.

- 4.2 Appendix A of the report details how the CFA ensures that the requirements of the statement are met.
