Audit Status: Completed Satisfactory Assurance	3 x Action Identified of which; 1 x Complete
<p>Opinion The overall opinion is that the risks identified are well controlled.</p> <ul style="list-style-type: none"> ▪ Roles and responsibilities for administering VAT are clearly defined. ▪ A Service Level Agreement is in place with HBC Corporate Finance to administer the VAT function. ▪ Effective arrangements are in place to keep up to date with changes in legislation through subscription to PS Tax (Public Sector Tax Consultancy). ▪ Audit review did find that the Authority does not appear to be complying with HMRC VAT Notice 700-64 (Motoring expenses) with respect to leased cars. Testing found that payments to the lease company are made with input tax being recovered at standard rate and not 50% recoverable rate. Furthermore, a small number of employees are permitted to use the vehicles for private use, which means that input tax is not recoverable. ▪ Debtor invoices are raised in a timely manner to ensure tax point / time of supply rules defined by HMRC are complied with and enable accurate accounting treatment of VAT. ▪ Testing of a sample of 10 found that: The correct income code has been used and VAT categories are in accordance with HMRC Guidance. ▪ There have been a limited number of debts written off by the Authority with no VAT implications. ▪ No compliance checks have been received from HMRC for the Authority in the current financial year to date. ▪ Monthly VAT returns are retained on the Making Tax Digital module on Integra. ▪ Enterprise is used to store creditor invoices. ▪ The Authority has a retention policy which identifies both creditor and sales invoices must be retained for 6 years. Access to records is restricted to authorised officers. 	

- Testing of a sample of 3 monthly VAT returns found that Input Tax and Output Tax are calculated correctly.
- Box 7 of the return detailing value of purchases (excluding VAT) is understated for May 2023 and August 2023 as it does not include purchase card transactions. The auditor was advised that the box is a memo only box and guidance from BDO states that the figures do not require rectification.
- There is segregation of duties in the preparation, checking and authorisation of returns prior to submission. VAT returns are submitted within prescribed timescales and amounts due from HMRC received. A year end reconciliation is undertaken of the VAT account. Checks are undertaken that net vat reclaimed is received in full.
- The Partial Exemption limit is not calculated on behalf of Cleveland Fire Authority. A review should therefore be undertaken by HBC Corporate Finance to calculate VAT attributable to exempt activities and verify that CFA continues to be able to recover such amounts due to amounts being less than £7,500 per annum (£625 per month) or 5% of the total VAT incurred on all purchases in a year.
