The Head of Risk and Performance (HoRP) outlined the performance of the Brigade for the period 1 April 2018 to 31 January 2019. The report covered the following details:

- Total incidents stand at 7,303 a reduction of 221 (- 3%) compared to the same period last year. These arose from 10,510 emergency calls to Fire Control.
- Secondary fires (2961 incidents) account for 41% of all incidents and have increased by 11% (302 incidents) since last year.
- False Alarms (2601) account for 36% of all incidents. These have decreased by 69 incidents primarily due to the implementation of the Brigade's Unwanted Fire Signals Strategy for Accidental Fire Alarms in non-residential buildings.
- Special Services have decreased by 28% (425 incidents) to 1098 mainly due to the reduction in Co-responder incidents which have reduced by 95% (407) from 430 to 23.
- Deliberate Primary Fires have reduced by 33 (9%) but Deliberate Secondary fires have increased by 349 (15%). Main types of Deliberate Primary Fires are deliberate vehicle fires (50%). Most common types of Deliberate Secondary Fires are refuse (71%), and grassland (26%).

- 85% of all our primary and secondary fires are classed as deliberate.
- Accidental Dwelling Fires (ADFs) have reduced by 20% since 2017/18 (from 120 to 96 incidents) with increases in Hartlepool and decreased in Stockton, Middlesbrough and Redcar and Cleveland. The main causes are electrical (21%), cooking related (21%), careless handling (19%) and radiated heat (17%).
- 70% of Accidental Dwelling Fires had a previous HFSV before the incident.
- The Brigade's main preventative services for ADF's are Home Fire Safety Visits (HFSVs) and Safe and Well Visits. In 2018-19 the Brigade has conducted 15,268 Home Fire Safety Visits and 2,374 Safe and Well Visits as well as 1,273 inspections of Industrial and Commercial buildings.

- Violence to Staff Incidents – 33 incidents (-3% from 2017/18).

The HoR&P confirmed that in January 2019, the Home Office published National Response Times to Fires for 2017/18 which ranked Cleveland fastest in the country for Primary/ Dwelling fires and road vehicle fires and 4th fastest for other building fires. The Brigade was also ranked 2nd fastest for secondary fires.

The DoCS praised Brigade staff for their efforts in continuing to maintain Cleveland's position as the safest place to live in the country in respect of Accidental Dwelling Fires (ADFs).

The Area Manager for Emergency Response (AMER) provided Members with a brief account of the recent fatal fire in North Ormesby and confirmed that the Brigade would be highly visible in the community offering advice and support.

Mr Mike Hill asked if HFSVs could be utilised more. The AMER confirmed that the purpose is primarily to prevent loss of life and fire and causational factors, such as electrical faults, are much harder to prevent.

Councillor James highlighted the risks posed from houses in need of re-wiring and suggested the Brigade could explore options to provide assistance to people who need this work carrying out.

Mr Steve Harwood asked what impact poor maintenance of buildings had on incidents of fires. The AMER confirmed that it was a combination of the condition of the building and the behaviours of those living in it. He added that factors such as the use of smoke alarms and introduction of furniture regulations meant that dwelling fires tended to be less severe than in the past.

104.1 Organisational Performance & Efficiency Report April 2018 – Dec 2018 cont.

Mr Hill asked the DoCS how she planned to address mental health issues affecting sickness absence. She confirmed this was a key focus of the Health & Wellbeing Strategy and initiatives included partnership work with MIND to train Blue Light Champions in the workplace as well as collaborative work with police.
